Lustre Photo Prints

High Resolution on Kodak Endura Lustre paper; well known for producing natural skin tones, enhanced highlight and shadow detail. Lustre Photo Printing has the vivid colors and sharp color contrasts that a Glossy Print would have, just without the reflective glare.

Mat board Mounting option is available. This sturdy backing is a great way to ensure the quality of framed prints over time. If you would like your prints mounted, please add \$6.00/print.

4x6 \$5.00
5x7 \$9.50
8x10 \$17.50
11x14 \$25.00

Additional sizes and photo papers available. Please inquire for more details. Because of color discrepancies and inconsistent quality among various consumer-level photo labs, we can only guarantee prints ordered through Carrie Collins Photography.

Canvas Gallery Wraps

Canvas is finished with a thick, black backing, hanging hardware and UV-free protective coating. The "face" of the canvas stands 1.5 inches from the wall when displayed.
